

## *Preparing for Learning Den Session*

### *(for Students)*

- Go through notes, homework, textbook, etc. and make notes of sections that you are not comfortable with
- Make a list of topics/questions on computer, post-it note, notebook, etc. so you do not forget to go over a topic during the session
- Bring as many class resources as you can to the session
- Try not to ask for an overview of the entire course, instead try to narrow down to specific chapters or sections unless you are truly confused about everything
- Asking general questions about certain topics is OK, the tutor will help find the root of the issues
- Make attempts of homework and textbook problems before session and bring to session so we can work through mistakes
- If you don't think you have issues with the material, but rather have poor study habits or test-taking skills, ask your tutor for advice in that class or at Hopkins in general
- Do not be afraid to ask any questions you have before and during sessions

Questions or Comments can be directed to [Tutoring@jhu.edu](mailto:Tutoring@jhu.edu).
